

Intermountain Contractor magazine is planning to publish its annual rankings of Top Design Firms (including consultants, architects, engineers and other design professionals) doing business in Idaho and Utah. Please complete the questionnaire below to earn recognition for the work your firm accomplished during 2007. The Top Design ranking also appears on our web site, intermountain.construction.com for a full year.

Ranking Criteria: We will rank firms based on total billings of design fees from projects in Idaho and Utah during 2007. We will also rank firms by total company-wide billings by various design specialties and disciplines, and number of regional employees.
